

## STUDENT FOOD AND LEARNING RESOURCE DISTRIBUTION SITES

Acting in an effort to promote health and safety, a decision was made today to close schools through spring break. We have prepared many different learning opportunities for our students to ensure learning can continue. All of the resources are available at [www.ccsd.net](http://www.ccsd.net).

If students cannot access the Student Learning Extension Opportunities online, the resources will be available in print at the breakfast and lunch sites. These 15 different locations listed below will be open weekdays from 8:00 AM to 11:00 AM beginning March 16, 2020.

**Please note, school-aged children must be present when picking up meals.**

## **STUDENT LEARNING EXTENSION OPPORTUNITIES**

During the timeframe in which the schools in the Clark County School District are closed, we are providing student learning extension opportunities for all students. These student learning extension opportunities are not required for students to complete but attempt to provide activities for students to engage in learning at home. At this time, the Special Needs Resource Library at Vegas PBS is available to complete requests for books for students with special needs from parents/guardians by calling 702-799-1010, Option 7 or emailing [SpecialNeeds@VegasPBS.org](mailto:SpecialNeeds@VegasPBS.org).

### Kindergarten-Grade 8

Student learning extension activities accessible through pencil and paper will provide opportunities for students to practice concepts and skills they have previously been taught during the school year. The learning extension activities will be available at food deployment locations throughout the Las Vegas valley and online at [ccsd.net](http://ccsd.net) in the near future.

Additional learning resources available for students in Kindergarten-Grade 8 are provided below:

- MAP Accelerator in Mathematics for Grade 3-Grade 8 <https://www.khanacademy.org/login>

### Grade 9-Grade 12

Learning extension activities at the high school level aligning to current courses are available. Students are encouraged to access learning platforms currently used at individual schools as existing log-in access exists for most students.

Students currently enrolled in Advanced Placement and International Baccalaureate courses may continue to access learning resources through virtual platforms students currently use.
