

SEVENTH GRADE COURSE CATALOG 2018-2019

All seventh grade students at Mannion Middle School are required to take the following course:

- English Language Arts 7
- Mathematics 7
- Science 7
- U.S. History/Nevada History
- Elective

Placement in all core subjects will be based on student need, academic readiness, and assessment scores.

ENGLISH LANGUAGE ARTS 7

This one-year, two-period course provides instruction in the English Language Arts strands identified by the Common Core State Standards as reading, writing, speaking and listening, and language. This course is designed to build on knowledge and skills through close reading of texts, learning combining elements of different kinds of writing in support of analysis and reflection, and class discussions. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology and digital media are integral parts of this course. This course fulfills the seventh-grade English requirement and the seventh-grade reading requirement for promotion.

ENGLISH LANGUAGE ARTS 7 ACCELERATED

This one-year, two-period course provides instruction in the English Language Arts strands identified by the Common Core State Standards as reading, writing, speaking and listening, and language. This course is designated as accelerated by the enhanced instructional pacing and depth of content. This course is designed to build on knowledge and skills through close reading of texts, learning combining elements of different kinds of writing in support of analysis and reflection, and class discussions. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology and digital media are integral parts of this course. This course fulfills the seventh-grade English requirement and the seventh-grade reading requirement for promotion.

MATH 7

This one-year course is designed to focus on four critical areas: 1) developing understanding of and applying proportional relationships; 2) developing understanding of operations with rational numbers and working with expressions and linear equations; 3) solving problems involving scale drawings and informal geometric constructions, and working with two- and three-dimensional shapes to solve problems involving area, surface area, and volume; and 4) drawing inferences about populations based on samples. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The use of manipulatives, mathematical tools, and technology, including calculators and computer software, is an integral part of this course. This course fulfills the mathematics requirement for seventh-grade students.

MATH 7 ACCELERATED

This one-year course is designed to prepare students for the increased rigor of the Common Core State Standards (CCSS) Algebra I in middle school. This compacted course includes grade seven curriculum as well as a portion of the currently adopted CCSS grade eight curriculum. This course focuses on six critical areas: 1) developing understanding of and applying proportional relationships; 2) developing understanding of operations with rational numbers and working with expressions and linear equations; 3) solving problems involving scale drawings and informal geometric constructions, and working with two- and three-dimensional shapes to solve problems involving area, surface area, and volume; 4) drawing inferences about populations based on samples; 5) formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; and 6) analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The use of manipulatives, mathematical tools, and technology, including calculators and computer software, is an integral part of this course. This course fulfills the mathematics requirement for seventh-grade students.

SEVENTH GRADE COURSE CATALOG 2018-2019

SCIENCE 7

This one-year course is designed to integrate science and engineering practices, crosscutting concepts, and core ideas from the life sciences, Earth and space sciences, and the physical sciences. The topics covered in Science 7 include Structure and Properties of Matter; Chemical Reactions; Matter and Energy in Organisms and Ecosystems; Interdependent Relationships in Ecosystems; Earth's Systems; History of Earth; Human Impact; and Engineering Design. Demonstrations and lab experiences that employ proper safety techniques are essential to this course. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This course fulfills the seventh-grade science requirement.

SCIENCE 7 ACCELERATED

This one-year course is designed to integrate science and engineering practices, crosscutting concepts, and core ideas from the life sciences, Earth and space sciences, and the physical sciences. This course is designated as accelerated by the enhanced instructional pacing and depth of content. The topics covered in Science 7 Accelerated include Structure and Properties of Matter; Chemical Reactions; Matter and Energy in Organisms and Ecosystems; Interdependent Relationships in Ecosystems; Earth's Systems; History of Earth; Human Impact; and Engineering Design. Demonstrations and lab experiences that employ proper safety techniques are essential to this course. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This course fulfills the seventh-grade science requirement.

U.S. HISTORY/NV HISTORY 7

This one-year course is a study of Nevada from statehood to present day and American history from the time of the American Revolution through World War II. Students explore and evaluate challenges facing the new nation and make connections between the rise of industrialization and contemporary social and economic conditions. The history of Nevada is integrated throughout the year. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to our society. The appropriate use of technology is an integral part of this course. This is a required course for all seventh grade students.

U.S. HISTORY/NV HISTORY 7 ACCELERATED

This one-year course is a study of Nevada from statehood to present day and American history from the time of the American Revolution through World War II. Students explore and evaluate challenges facing the new nation and make connections between the rise of industrialization and contemporary social and economic conditions. The history of Nevada is integrated throughout the year. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to our society. The appropriate use of technology is an integral part of this course. This is a required course for all seventh grade students.

CCSD RETENTION POLICY

The retention policy is based upon Clark County School District Regulation 5123. This policy is subject to change by the Nevada State Board of Education and the Clark County School District Board of School Trustees.

SEVENTH GRADE: A pupil who enters grade seven must complete one semester with a passing grade in mathematics, science, social studies, and English Language Arts for promotion to eighth grade. No student may be retained more than once in the seventh grade.

SEVENTH GRADE COURSE CATALOG 2018-2019

7th GRADE ELECTIVE CHOICES

Electives are based upon student enrollment and staff availability.

BEGINNING BAND

The Beginning Band (brass, woodwind, and percussion) is open to 6th, 7th, and 8th grade students without any previous musical experience. This course involves applying the basic fundamentals of music reading and the specific performance techniques of the instrument being studied. Daily home practice and concert participation are required. This course is a preparatory course for progression into concert band and symphonic band.

INTERMEDIATE BAND

This one-year course is designed for students who have successfully completed the skills required in beginning band. Areas of emphasis include intermediate fundamentals of music reading and the specific performance techniques of the instrument being studied. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This is an elective course appropriate for grades six through eight and may be repeated.

ADVANCED BAND

This one-year course is designed for students who have successfully mastered intermediate band skills. Areas of emphasis include fundamentals of music reading, specific performance techniques of the instrument being studied, and advanced concepts of tone production and intonation. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This is an elective course appropriate for grades six through eight and may be repeated.

BEGINNING ORCHESTRA

This one-year course is designed for 6th, 7th, and 8th grade students with no previous orchestra experience. The course involves applying basic fundamentals of music reading and the specific performance techniques of the instrument being studied. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This is an elective course appropriate for grades six through eight and may be repeated.

INTERMEDIATE ORCHESTRA

This one-year course is designed for students who have successfully completed a middle school beginning orchestra course and/or demonstrated the required skills by audition. The course involves applying both basic and intermediate fundamentals of music reading and the specific performance techniques of the instrument being studied. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This is an elective course appropriate for grades six through eight and may be repeated.

ADVANCED ORCHESTRA

This one-year course is designed for students who have successfully completed a middle school intermediate orchestra course and/or demonstrated the required skills by audition. Areas of emphasis include advanced concepts in music reading, specific performance techniques of the instrument being studied, tone production, and intonation. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This is an elective course appropriate for grades six through eight and may be repeated.

SEVENTH GRADE COURSE CATALOG 2018-2019

BEGINNING CHORUS

This one-year course is designed as an introductory study in basic vocal production and music fundamentals. Major topics include beginning vocal performance skills, live performance opportunities, and the study of basic vocal literature including a range of historical periods and cultures. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This is an elective course appropriate for grades six through eight and may be repeated.

ADVANCED CHORUS

This one-year course is designed for middle school students who have successfully completed an intermediate vocal music course, and/or have demonstrated competency by audition. Major topics include advanced vocal performance skills, live performance opportunities, and the study of advanced vocal literature including a range of historical periods and cultures. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This is an elective course appropriate for grades six through eight and may be repeated.

CHAMBER CHORUS

This one-year course is designed for middle school students who have successfully completed an advanced choir course and/or have demonstrated competency through audition and want to explore chamber ensemble performance techniques. Major topics include advanced small ensemble performance skills, live performance opportunities, and the study of vocal chamber music in a range of historical periods and cultures. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This is an elective course appropriate for grades six through eight and may be repeated.

MUSICAL INSTRUMENTS: Please do not purchase or rent instruments until the instructor verifies instrument choices and sends information home.

EXPLORATIONS 7/8: FOUR (4) QUARTERS (MAY NOT BE TAKEN AGAIN IN 8TH GRADE)

This one-year course is broken into four-quarter segments. Each quarter will have a different teacher and topic. Topics from the 2017-2018 school year have included: personal finance, art, environmental studies, and speech and debate. Specific topics for Explorations will depend on staffing, student needs, enrollment, and will be determined after pre-registrations information is collected.

SPANISH 1

This one-year course is designed to facilitate a student's acquisition of the target language at the novice-high level as identified in the foreign language proficiency guidelines established by the American Council on the Teaching of Foreign Languages (ACTFL). The focus is communication in the target language incorporating an understanding of the target cultures, connecting with other disciplines, comparing native language to the target language, and participating in multicultural communities. The course provides practice in correct use of basic vocabulary and language structures to enable students to function effectively within realistic settings. ACTFL recommends that at least 90% of the instructional time in class be conducted in the target language. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to our society. The appropriate use of technology is an integral part of this course. This course fulfills either one of the elective credits or the Arts/Humanities credit required for high school graduation.

PHYSICAL EDUCATION

This one-year course provides students the opportunity to develop a health-enhancing level of physical fitness. Students engage in movement and fitness activities at moderate to vigorous levels for a minimum of 50% of the instructional time. Through participation in physical activities, students develop motor skills, movement patterns, and safety within the course. Health-enhancing fitness concepts are explored through personal goal setting and self-evaluation. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology is an integral part of this course. This course fulfills the physical education requirement for seventh-grade students.

MENTORSHIP: APPLICATION REQUIRED

This one-year course is designed to allow students to work closely with other students on campus who have special needs. Mentors serve as role models for these students and have duties, such as assisting them in their elective classes and helping them complete projects. Students who choose to be mentors are expected to have a good heart and a strong desire to help others. There is not grade point average requirement to become a peer advocate. Once in the program, students are expected to maintain passing grades in all their classes.

STUDENT AIDE: APPLICATION REQUIRED

This one-year course is designed to allow students to assist teachers in classroom management. Under the direction of a supervising teacher, students will gain experience in clerical duties, laboratory assistance, working with faculty members, and following directions. Students are assigned supervising teachers by a formal application process. This is an elective course for eighth grade students.

ROBOTICS/TV PRODUCTION

This one-year course is designed to provide students with a general understanding and attainment of basic skills in the technical, directorial, written, and historical aspects of television production. The operation of television cameras, lighting, audio, video, and computer graphics equipment is stressed, as well as set design, script development, and the history of the television medium. Students will experience hands-on production tasks in a rotational system to become familiar with techniques used in the broadcast industry.

CAFETERIA AIDE

This one-semester course is designed to allow students to train in the school cafeteria. Under the direction of a food supervisor and a certified educator, students will gain experience in food service and handling, in handling money, in being responsible for customer service, and following directions. This is an elective course for eighth grade students.

ATTENTION PARENTS: To ensure student proficiency in core curriculum subjects, it may be necessary to enroll students in an intensive remediation program in lieu of an elective. Placement in remediation programs will be based on relevant student assessment data and administrative selection.

FUNDAMENTALS OF READING AND WRITING

This one-year intervention course is designed for students who need additional instruction and support to master grade-level reading and writing skills and concepts. This course provides additional instruction in conjunction with the student's required reading and English course(s) of study in grades 6, 7, and/or 8. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The appropriate use of technology and digital media are integral parts of this course. This course is a repeatable elective and does not fulfill the middle school English or reading requirement for promotion.

FUNDAMENTALS OF MATHEMATICS

This one-year intervention course in mathematics is designed for students who need additional instruction and support to master necessary middle school mathematics concepts. This course provides additional instruction in conjunction with the student's required mathematics course of study in grades 6, 7, and/or 8. Instructional practices incorporate integration of diversity awareness including appreciation of all cultures and their important contributions to society. The use of manipulatives, mathematical tools, and technology, including calculators and computer software, is an integral part of this course. This course is a repeatable elective course and does not fulfill the middle school mathematics requirement for promotion.

NON-DISCRIMINATION LANGUAGE

The Clark County School District does not knowingly discriminate against any person on the basis of race, color, creed, religion, national or ethnic origin, sex, age, or disability in admission or access to, or treatment or employment in, or participation in its programs and activities and provide equal access to the Boy Scouts of America and other designated youth groups.

FOUR-YEAR ACADEMIC PLAN

Each ninth-grade student must have an approved four-year academic plan. The academic plan must set forth the specific educational goals that the student intends to achieve before graduation from high school. The plan may include, without limitation, the designation of a career pathway and enrollment in dual credit, career and technical education, Advanced Placement (AP), International Baccalaureate (IB), and Honors courses.

The ninth-grade student and his/her parent or legal guardian are required to work in consultation with a school counselor to develop an academic plan, sign the academic plan, review the academic plan at least once each school year in consultation with a school counselor, and revise the plan if necessary.

For students enrolling in high school after ninth grade, an academic plan will be created with appropriate grade level modifications.

The academic plan must be used as a guide for the student and the parent or legal guardian to plan, monitor, and manage the student's educational development and make determinations of the appropriate course of study. If a student does not satisfy all of the goals set forth in the academic plan, he/she is eligible to graduate and receive a high school diploma if requirements for a diploma are otherwise satisfied.

SEVENTH GRADE COURSE CATALOG 2018-2019

21st CENTURY COURSE OF STUDY EXPECTATIONS

The Clark County School District strives to prepare graduates for success in post-secondary education and in the workforce by providing a rigorous curriculum. All high school students will be enrolled in the 21st Century Course of Study Core Curriculum (see table below). Students will be scheduled into a fourth year of mathematics (which will include Algebra II or higher), and a third year of science. This is not a diploma. Students that do not successfully complete the 21st Century Course of Study Core Curriculum may still be eligible for a diploma.

AREAS OF STUDY	UNITS
ENGLISH	4
MATHEMATICS (Including Algebra II or higher)	4
Natural Science	3
Social Studies and History	3
Total	14

The Clark County School District strives to prepare graduates for success in post-secondary education and in the workforce by providing a rigorous curriculum. All high school students will be enrolled in the 21st Century Course of Study Core Curriculum (see table). Students will be scheduled into a fourth year of mathematics (which will include Algebra II or higher), and a third year of science. This is not a diploma. Students that do not successfully complete the 21st Century Course of Study Core Curriculum may still be eligible for a diploma.

The 21st Century Course of Study Core Curriculum provides the following for students:

- Opens doors to postsecondary education and workforce opportunities
- Meets Nevada System of Higher Education (NSHE) University Admissions Expectations
 - 3.00 GPA (weighted or weighted with Bonus Points) in the core curriculum
 - Approved NSHE Core Curriculum (4 English, 3 Math, 3 Natural Science, 3 Social Science & History = 13 units)
- Prepares students for the Governor Guinn Millennium Scholarship
- 3.25 cumulative GPA (weighted or weighted with Bonus Points) or 21 ACT composite score, or 990 combined SAT (taken prior to March 2016, or 1070 combined SAT (taken on or after March 2016) and the core curriculum (see table)
- Students may not take course work after graduation to meet Millennium Eligibility.

The 21st Century Course of Study Core Curriculum requirements are aligned with the Governor Guinn Millennium Scholarship minimum core curriculum requirements as outlined in both the Nevada Revised Statutes (NRS) Chapter 396 and Nevada System of Higher Education (NSHE) Board of Regents Handbook Title 4 Chapter 18 Section 9. A student, including students accessing special education services, may be granted an enrollment exception to the 21st Century Course of Study Core Curriculum on a limited, individual basis. Please see a school counselor for details. Successful completion of this course of study will not impact a student's ability to earn a standard diploma.

STANDARD DIPLOMA

To receive a standard high school diploma, each student must complete twenty-two and one half (22.5) units of approved course work.

* World History or Geography taken in CCSD fulfills the Arts/Humanities or Career and Technical Education (CTE) state requirement. (PLEASE SEE CHART ON PAGE 9)

** Successful completion of a one-semester computer literacy course offered in grades 6, 7, or 8 will satisfy the 21st Century Learning graduation requirement. (PLEASE SEE CHART ON PAGE 9)

Testing Requirements

Students enrolled in Grade 11 of a Nevada school during an administration of the College and Career Readiness Assessment (ACT) must take the ACT to be eligible for a diploma. Students not enrolled in Grade 11 of a Nevada public school on either of the administration dates of the ACT are exempt from this assessment participation requirement for graduation (NRS 389.807).

SEVENTH GRADE COURSE CATALOG 2018-2019

NOTE: End of Course (EOC) examinations have been transitioned from a graduation requirement to an End of Course final exam as required by AB7 of the 2017 legislative session.

ADVANCED DIPLOMA

To receive an Advanced Diploma, each student must complete twenty-four (24) units of approved course work and achieve a minimum grade point average (GPA).

* World History or Geography taken in CCSD fulfills the Arts/Humanities or Career and Technical Education (CTE) state requirement. (PLEASE SEE CHART ON PAGE 9)

** Successful completion of a one-semester computer literacy course offered in grades 6, 7, or 8 will satisfy the 21st Century Learning graduation requirement. (PLEASE SEE CHART ON PAGE 9)

*** For students pursuing the Advanced Diploma or Advanced Honors Diploma, World History or Geography will satisfy either the student's third social studies credit or the student's Arts/Humanities or Career and Technical Education elective credit, but not both. (PLEASE SEE CHART ON PAGE 9)

Testing Requirements

Students enrolled in Grade 11 of a Nevada school during an administration of the College and Career Readiness Assessment (ACT) must take the ACT to be eligible for a diploma. Students not enrolled in Grade 11 of a Nevada public school on either of the administration dates of the ACT are exempt from this assessment participation requirement for graduation (NRS 389.807).

NOTE: End of Course (EOC) examinations have been transitioned from a graduation requirement to an End of Course final exam as required by AB7 of the 2017 legislative session.

ADVANCED HONORS DIPLOMA

To receive an Advanced Diploma, each student must earn the Advanced Diploma with at least twelve (12) Bonus Point Units consisting of Honors, International Baccalaureate (IB), or Advanced Placement (AP) courses as outlined below.

**** First year foreign language courses do not earn Bonus Point Units in CCSD. (PLEASE SEE CHART ON PAGE 9)

Testing Requirements

Students enrolled in Grade 11 of a Nevada school during an administration of the College and Career Readiness Assessment

(ACT) must take the ACT to be eligible for a diploma. Students not enrolled in Grade 11 of a Nevada public school on either of the administration dates of the ACT are exempt from this assessment participation requirement for graduation (NRS 389.807).

NOTE: End of Course (EOC) examinations have been transitioned from a graduation requirement to an End of Course final exam as required by AB7 of the 2017 legislative session.

ADVANTAGES OF THE HONORS COURSE OFFERINGS

1. Most competitive colleges and universities consider not only students' grades, but also their academic background evidenced by courses listed on the transcript, letters of recommendation from teachers and counselors, and SAT or ACT Scores
2. Enrollment in the Advanced Honors Diploma course work will assist students in their preparation for college entrance exams.
3. The GPA weighted with Bonus Points is used when determining class rank.

DUPLICATE COURSE WORK – REPEATING COURSES

A student may repeat a course. A student shall not receive additional credit for the repeated course. The higher grade shall be recorded on the permanent record and the lower grade replaced with a repeated course notation.

A student may repeat a failed course one time to improve a grade. Regardless of the number of times a course is repeated, a grade of an “F” will only be removed once. If applicable, all other “F’s” will remain on a transcript.

NEVADA DEPARTMENT OF EDUCATION CODE OF HONOR

There is a clear expectation that all students will perform academic tasks with honor and integrity, with the support of parents, staff, faculty, administration, and the community. The learning process requires students to think, process, organize, and create their own ideas. Throughout this process, students gain knowledge, self-respect, and ownership in the work that they do. These qualities provide a solid foundation for life skills, impacting people positively throughout their lives. Cheating and plagiarism violate the fundamental learning process and compromise personal integrity and one’s honor. Students demonstrate academic honesty and integrity by not cheating, plagiarizing, or using information unethically in any way.

SEVENTH GRADE COURSE CATALOG 2018-2019

What is cheating?

Cheating or academic dishonesty can take many forms, but always involves the improper taking of information from and/or giving of information to another student, individual, or other source. Examples of cheating can include, but are not limited to:

- Taking or copying answers on an examination or any other assignment from another student or other source
- Giving answers on an examination or any other assignment to another student
- Copying assignments that are turned in as original work
- Collaborating on exams, assignments, papers, and/or projects without specific teacher permission
- Allowing others to do the research or writing for an assigned paper
- Using unauthorized electronic devices
- Falsifying data or lab results, including changing grades electronically

What is plagiarism?

Plagiarism is a common form of cheating or academic dishonesty in the school setting. It is representing another person's works or ideas as your own without giving credit to the proper source and submitting it for any purpose. Examples of plagiarism can include, but are not limited to:

- Submitting someone else's work, such as published sources in part or whole, as your own without giving credit to the source
- Turning in purchased papers or papers from the Internet written by someone else
- Representing another person's artistic or scholarly works such as musical compositions, computer programs, photographs, drawings, or paintings as your own
- Helping others plagiarize by giving them your work

All stakeholders have a responsibility in maintaining academic honesty. Educators must provide the tools and teach the concepts that afford students the knowledge to understand the characteristics of cheating and plagiarism. Parents must support their students in making good decisions relative to completing course work assignments and taking exams. Students must produce work that is theirs alone, recognizing the importance of thinking for themselves and learning independently, when that is the nature of the assignment. Adhering to the Code of Honor for the purposes of academic honesty promotes an essential skill that goes beyond the school environment. Honesty and integrity are useful and valuable traits impacting one's life.

Questions or concerns regarding the consequences associated with a violation of the Code of Honor may be directed towards your child's school administration and/or the school district.

CLARK COUNTY SCHOOL DISTRICT ATHLETIC ELIGIBILITY

Initial Eligibility – General Requirements:

1. Must be enrolled in grades 9-12.
2. Must reside in the school of enrollment's attendance zone.
3. Must be enrolled in a minimum of two units of credit consisting of at least four classes per semester and regularly attend school.
4. Must have passed a minimum of two units of credit the immediate preceding semester with a minimum grade point average of 2.0. A student may earn a maximum of one unit of external credit (summer school, correspondence, etc.) to improve previous semester deficiency.
5. Transfer students are automatically presumed ineligible. Rebuttal of presumption of ineligibility guidelines are contained in Nevada Interscholastic Activities Association (NIAA) regulations (NAC 386.785 – 386.799).

SEVENTH GRADE COURSE CATALOG 2018-2019

6. **Secondary Magnet School** students who enroll for less than a three (3) year program or enroll in individual classes are ineligible for athletics at the Magnet School for 180 school days. Students who drop from the Magnet program will become automatically ineligible for athletics at the Magnet School for 180 school days. If a student chooses to return to his/her school of residence, he/she would be ineligible for the remainder of that school year and for 180 school days in any sport in which his/her name appeared on a NIAA roster during his/her attendance at the Magnet School.
7. **Secondary Open Enrollment/Select Minority to Majority** students who are selected to attend this type of school are eligible to participate in athletics. Students who change schools will become automatically ineligible for the remainder of the current school year and for 180 school days in any sport his/her name appeared on an NIAA roster during his/her attendance at the Open Enrollment school.
8. **Career Technical Academy/Charter School/Home-Schooled** students are eligible to participate in athletics in the school that is located in the attendance zone of the residence of the parent or legal guardian.

Maintenance of Eligibility:

1. Must maintain passing grades in all subjects during the current athletic season.
2. Must regularly attend school. Must be in school in order to participate in practice or games on any given day.
3. Must maintain positive citizenship. Students on RPC or suspension are not eligible to participate. Serious and/or chronic behavior infractions may result in suspension of athletic participation for up to one year, at the discretion of the principal. Additional specific eligibility guidelines are contained in Nevada Interscholastic Activities Association (NIAA) regulations (NAC 386.776 – 386.855) and Clark County School District regulation 5135.

GOVERNOR GUINN MILLENNIUM SCHOLARSHIP PROGRAM

The State of Nevada's Governor Guinn Millennium Scholarship Program provides financial support to Nevada's high school graduates who attend an eligible Nevada community college, state college, or university. You may receive up to a maximum award of \$10,000 for undergraduate coursework during the six years following your high school graduation. There is no application form to complete. If you meet all Millennium Scholarship requirements upon high school graduation, the District will submit your name to the Office of the State Treasurer. You will receive an award notification in early August. A fact sheet on policy guidelines and requirements for eligibility can be obtained by calling 888-477-2667 or at www.nevadatreasurer.gov. Please note that this information is subject to any changes in state law, policies adopted by the NSHE Board of Regents, availability of funding, and any related matters hereto.

CCSD GUIDANCE & COUNSELING WEBSITE

The Guidance and Counseling website, which can be found at <http://ccsd.net/departments/guidance-counseling>, is designed to provide students and parents with information on counseling services provided by the school district. It also serves as a support reference for preparing students for their future educational decisions. Information on diploma requirements, scholarship opportunities and post- secondary opportunities are just a few of examples of information available on the website.
